IDENTIFIERS	*Alabama Student Grant Program

ABSTRACT

Following a description of the establishment of the Alabama Student Grant Program (which provides direct grants to bonafide residents of Alabama for attending undergraduate school at specified nonprofit, independent Alabama institutions), information is provided on student eligibility requirements. Applicants must meet such criteria as having United States citizenship, having a certificate of graduation (or the equivalent) from a secondary school, being enrolled as a full- or half-time student in an eligible program, be making satisfactory progress, and not be enrolled in a course of study leading to a degree in religion or theology. Appropriations for the grant program were $3,342,956 in 1985-86 and $3,016,828 for 1986-87. Maximum grant awards were $550 in 1978-79 and $516 in 1986-87. Most grant recipients majored in business administration, education, or general liberal arts and sciences. Over 7% majored in technological or occupational programs at the associate degree or sub-baccalaureate level. Tables are included to note distribution of grant recipients and payments by institutions, rank order listing of numbers and percentages of grant recipients by program areas, and intra-institutional distribution of grant awards. INTRODUCTION

The Alabama Commission on Higher Education (ASGP) is a State grant-in-aid program made possible by the direct appropriation of funds by the Legislature of the State of Alabama. Created by Act 90 during the Second Special Session of the 1978 Legislature, the Alabama Student Grant Program was established to provide direct grants to bonafide residents of Alabama for undergraduate attendance at certain independent, nonprofit Alabama postsecondary educational institutions.

Specifically restricted by the Act from participation in the Alabama Student Grant Program are students enrolled in any independent, nonprofit college or university which receives a direct institutional appropriation during the fiscal year from the State of Alabama. Since 1978-79, these institutions have included Marion Military Institute, Talladega College, and Tuskegee University. The Act further designated the Alabama Commission on Higher Education (ACHE) as the administrator of the Program and directed the agency to establish the operating procedures and regulations.

In the initial year, a total of $2,688,260 in grant payments were issued to 6,247 eligible grant recipients at 16 approved institutions within the State of Alabama. In the second year, a total of $2,960,752 in grant payments were issued to 6,768 eligible grant recipients at 12 approved institutions. In the third year, a total of $2,677,685 in grant payments were issued to 7,271 eligible grant recipients at 11 approved institutions within Alabama.

In the fourth year, a total of $3,184,417 in grant payments were issued to 7,381 eligbile grant recipients at 11 approved institutions within Alabama. In the fifth year, a total of $2,683,710 in grant payments were issued to 7,462 eligible grant recipients at 14 approved institutions. In the sixth year, a total of $3,241,000 in grant payments were issued to 7,841 eligible grant recipients at 13 approved institutions.

In 1984-85, the seventh year of the program, a total of $2,946,811 in grant payments were issued to 7,580 eligible grant recipients at 14 approved institutions. In the eighth year of the program, 1985-86, a total of $3,342,200 in grant payments were issued to 7,266 eligible grant recipients at 13 approved institutions. In the ninth year of the program, 1986-87, a total of $2,812,968 in grant payments were issued to 6,957 grant recipients at 13 approved institutions within Alabama.

During the first year of operation of the Alabama Student Grant Program, the legality and constitutionality of this program was challenged in the courts. However, the Alabama Student Grant Program was declared to be constitutional on its face by the Montgomery Circuit Court. This decision was upheld by the Alabama Supreme Court.

STUDENT ELIGIBILITY REQUIREMENTS

Alabama Student Grant Program awards are limited to bonafide residents of the State of Alabama for undergraduate, nonsectarian, secular education at certain independent, nonprofit postsecondary educational institutions of higher education located within the State of Alabama. In order to be eligible for consideration for an ASGP award, an applicant must meet the following criteria:

(1) Have obtained a certificate of graduation from a secondary school, or have obtained the recognized equivalent of such graduation;

(2) Be classified as an undergraduate student;

(3) Be an Alabama resident as defined in Act No. 90, Acts of Alabama, Special Session 1978, the Alabama Student Grant Program;

(4) Be a citizen of the United States, or be in the process of becoming a citizen of the United States;

(5) Be enrolled as a full-time or half-time student in an eligible program in an approved institution;

(6) Be making satisfactory academic progress; and,

(7) Not be enrolled, or intend to enroll, in a course of study leading to an undergraduate degree in theology, religion, or other field of preparation for a religious vocation.

SUMMARY

The Alabama Student Grant Program (ASGP) is a State grant-in-aid program made possible by the direct appropriation of funds by the Legislature of the State of Alabama. Created by Act 90 during the Second Special Session of the 1978 Legislature, the Alabama Student Grant Program was established to provide direct grants to bonafide residents of Alabama for undergraduate attendance at certain independent, nonprofit Alabama postsecondary educational institutions. This Act further designated the Alabama Commission on Higher Education (ACHE) as the administrator of the program.

On October 13, 1978, the Alabama Commission on Higher Education approved regulations (operating procedures) for the Alabama Student Grant Program. These regulations specify that maximum academic year awards, up to $600, will be determined by the number of applicants in the program. Until the 1985-86 academic year, the appropriation for the Alabama Student Grant Program was $3 million each year. For the 1985-86 academic year, the appropriation was $3,342,956. For the 1986-87, the appropriation was $3,016,828. Maximum grant awards for the program were $550 in 1978-79, $564 in 1979-80, $504 in 1980-81, $570 in 1981-82, $468 in 1982-83, $540 in 1983-84, $507 in 1984-85, $600 in 1985-86, and $516 in 1986-87.

The number of grant recipients for 1986-87 ranged from a low of 20 at Southeastern Bible College to a high of 1,336 at Samford University (Birmingham). The median number of recipients per institution was 430, and the mean number of recipients was 535.

A majority of all grant recipients majored in business administration, general liberal arts and sciences, or education. Over one-fourth of all grant recipients majored in a business administration program. Over one-fifth of all grant recipients majored in general liberal arts and sciences. Nearly one-thirteenth of all grant recipients majored in education.

A total of 561 students, or 7.94% of all grant recipients, majored in a technological or occupational program at the associate degree or sub-baccalaureate level. A total of 286 students, or 4.05% of all grant recipients, majored in a technical-health area. During the previous year, less than 1% of the grant recipients were enrolled in this type of program.

INSTITUTIONAL DISTRIBUTION

In order for an Alabama resident to receive an ASGP award, the recipient must be enrolled in a nonsectarian, secular educational program of at least six months duration and which has been approved by the Alabama Commission on Higher Education. An eligible program must be offered at an institution approved by ACHE for student participation in the Alabama Student Grant Program.

In order to be considered an approved institution, the institution must be independent, nonprofit, postsecondary educational institution located within the State of Alabama and meet the following criteria:

(1) be accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS), or if it is not so accredited, be classified in an exemption status and be licensed to operate in the State of Alabama by the Private School Unit of the State Department of Education, and be in the formal process of attaining accreditation by SACS, or be an institution whose credits are currently accepted, on transfer, by at least three (3) other institutions which are accredited by SACS within Alabama.
(2) file a signed agreement with ACHE to comply with all regulations and procedures of the ASGP;
(3) have an academic curriculum which is not comprised principally of sectarian instruction or preparation of students for a sectarian vocation;
(4) not award primarily theological or religious degrees;
(5) perform essentially secular educational functions which are distinct and separable from religious activity;
(6) not discriminate in its admission practices on the basis of religious or denominational preference;
(7) not receive a direct institutional appropriation for the fiscal year from the State of Alabama.

All 13 institutions approved by ACHE had ASGP applicants for the 1986-87 academic year. These institutions are included in Table I. Also listed by institution in this table are the number of grant recipients, the percentage of total grant recipients, the number of payments made to students, the number of payments returned, and the total dollar amount of grants received.

The number of grant recipients ranged from a low of 20 at Southeastern Bible College (Birmingham) to a high of 1,336 at Samford University (Birmingham). The median number of recipients at the institutions was 430, and the mean number of recipients was 535. Of the 12,495 disbursements, 7 payments, or .001% of the disbursements, were returned because the grant recipients were determined ineligible by institutional aid officers or by the Commission staff.

TABLE I

DISTRIBUTION OF GRANT RECIPIENTS AND PAYMENTS BY INSTITUTIONS

Institution	Number of Grant Recipients	Percentage of Grant Recipients	Number of Payments Received	Number of Payments Returned	Amount of Grants
Birmingham-Southern College	1,250	17.97%	2,396	3	$ 548,058
Concordia College	430	6.18	689	0	175,887
Faulkner University	1,293	18.59	2,359	0	403,187
Huntingdon College	512	7.36	915	1	214,626
Judson College	201	2.89	356	0	90,678
Miles College	364	5.23	605	1	149,361
Mobile College	492	7.07	838	1	196,152
Oakwood College	58	.83	149	0	25,508
Samford University	1,336	19.20	2,352	0	557,223
Selma University	78	1.12	132	0	33,651
Southeastern Bible College	20	.29	35	0	7,692
Spring Hill College	380	5.46	708	1	165,419
Stillman College	543	7.81	961	0	245,526
TOTALS	6,957	100.00%	12,495	7	$2,812,968

DISTRIBUTION BY COURSE PROGRAM AREAS

Grant recipients majored in 27 different course program areas as outlined in the HEGIS Taxonomy of Subject Areas. The HEGIS Taxonomy (Higher Education General Information Survey course classification system) was developed in 1970 by the National Center for Education Statistics (NCES) and allows users to describe academic subject areas associated with instructional offerings.

Table II, Rank Order Listing of Numbers and Percentages of Grant Recipients by Program Areas, includes the course program areas of grant recipients, the number of grant recipients per course area, and the percentage of grant recipients enrolled in each course program area. The 7,065 total number of grant recipients in all course program areas represents the total headcount enrollment in all subject areas.

More than one-fourth, 28.92 percent, of all grant recipients majored in a business administration program. Subject classifications included accounting, business, business administration, finance, economics, and secretarial science. About one-fifth, 20.72 percent of all grant recipients, majored in general liberal arts and sciences. This category included all students enrolled in a general liberal arts and sciences curriculum, as well as those students who had not selected a major course of study.

Nearly one-thirteenth, 7.46 percent, of all grant recipients, majored in education. Subject classification included art education; business education; early childhood education; education, elementary education; general science--education; health, physical education, and athletics; mathematics education; music education; psychology--education; and secondary education.

Nearly one-seventeenth, 5.79 percent, of all grant recipients majored in a social science program area. Subject classifications included social science, history, political science, economics, sociology, and international relations. During the previous year, 4.93 percent of all grant recipients majored in a social science program area.

Over half, 57.10 percent, of all grant recipients majored in business administration, general liberal arts and science, or education.

About one-twentieth, 4.93 percent of all grant recipients, majoring in a nursing program. Over half of the nursing students were in an LPN or LVN curriculum, and nearly half of the students were enrolled in a baccalaureate degree nursing program.

All the program codes at the 5000 and above level are technological and occupational curricula below the baccalaureate degree level. The institutions having such curricula included Faulkner University, Mobile College, Samford University, and Selma University. A total of 561 recipients, or 7.94% of all grant recipients, majored in a technological or occupational program at the associate degree or sub-baccalaureate level.

TABLE II

RANK ORDER LISTING OF NUMBERS AND PERCENTAGES OF GRANT RECIPIENTS BY PROGRAM AREAS

Program Area	Program Code Level	Number of Grant Recipients	Percentage of Grant Recipients
Business Administration	500	2,043	28.92%
General Liberal Arts and Sciences	4900	1,464	20.72
Education	800	527	7.46
Social Sciences	2200	409	5.79
Biology	400	330	4.67

TOTALS		7,065	100.00%

INTRA-INSTITUTIONAL DISTRIBUTION OF GRANT AWARDS

Tables III through XV list the numbers of grant recipients enrolled in the various approved programs at each of the approved institutions. Also included by course program areas are the numbers of payments received, the number of payments returned, the total payments, and the average payments per student.

Maximum grant awards for 1986-87 were $516. To receive a maximum grant, a student had to be enrolled as a full-time student for the entire academic year at an approved institution (or institutions). Any student who enrolled for less than a full-time load, but at least a half-time load, or who was enrolled for less than the entire academic year, received less than the maximum grant award for the year.

Payments were issued to students on a per term basis--i.e., full-time students enrolled at an institution on the semester system received two payments during the year ($258 first term, and $258 second term), and students enrolled at an institution on the quarter system received three payments ($172 first term, $172 second term, and $172 third term). The total dollar amount of payments per program area, therefore, was dependent upon the number of students enrolled in the program area, the full- or half-time status of the students, and the number of terms the students were enrolled.

Column 5 of Tables III through XV lists by program areas the number of payments returned. A total of 7 payments, or .001 percent of all disbursements, were returned by the institutions for cancellation. Payments were returned because designated recipients were determined to be ineligible by institutional aid officers or Commission staff members. Designated recipients were considered ineligible for their grant awards when they dropped below their full- or half-time student status, withdrew, failed to provide necessary documentation of eligibility criteria, or transferred into programs of study not approved by ACHE for grant recipients.

Column 7 of Tables III through XV lists by program areas the average payment per student. Each average payment figure was derived by dividing the total dollar amount of payments per program area (Column 6) by the number of grant recipients per program code (Column 3). The average payment per student in any program area was less than the $516 maximum payment for 1985-86 when any of the grant recipients in the program area attended the institution for less than the academic year, or enrolled for less than a full-time load for any term(s) during the academic year.
